

Why do people visit churches?

What do they come to see?

If they came to your church what would they see?

how much is cheapest contactless?

Is there any experience of advertising BACs payments or one or parish giving?

Isobel Bushell YES to quality!!! Digital printing is not so expensive now and our audience is very sophisticated and have high expectations. If you provide the bullet pointed information they may stay longer to find out more. QR code is a way to do this but don't forget the children!

For an extra £15 you can have bespoke artwork on the GBx mini stand.

Isobel Bushell as a designer Illustrator I would say a simple house style will make such a difference. Use the same typeface throughout and establish a style of presentation will help.

You can have a donate button on your ACNY page now as well, which you can direct to whichever platform you choose. Give a Little is a great way of doing that.

Is this GBx contactless need Wifi all the time or can you take it back to download?

From Mark Simmons to Everyone: 02:57 PM

GBx doesn't need WiFi.

There is a website called [Easy Fundraising](#) which is attached to online retailers like M&S, Amazon which gives a small proportion of the purchase price towards your nominated charity, this includes churches
